### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph R. Keating on 22 July 2004.

#### **Specification:**

##### **The title:**

The title has been amended to: -- A METHOD OF MANUFACTURING A COMPOSITE VIBRATOR --.

##### **Reasons for Allowance:**

The following is an examiner's statement of reasons for allowance: the prior art does not teach all of the limitations of the claimed invention including:

- a second step of completely cutting the base substrate (300) from the direction of a first main-surface side of the base substrate while leaving a part of the auxiliary substrate (400) to form a plurality of tuning bar vibrators (100, 200) arranged in a width direction, the relative positions of the tuning bar vibrators being retained by the auxiliary substrate; and a fourth step of separating the auxiliary substrate (400) from the second main surfaces (320) of the tuning bar vibrators.

The closest Prior art reference to the above feature is directed to Yabe et al (US 6,023,973). Yabe et al teach providing a first piezoelectric substrate (13) and a second piezoelectric substrate (14). Each of divided electrodes (16a, 16b) that are positioned on upper position of vibrator (11). However, nowhere do Yabe et al teach defining a separating the auxiliary substrate (400) from the second main surfaces of the tuning bar vibrators.

Accordingly, claims 9-15 are allowed.

Any comment considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comment on Statement of Reasons for Allowance".

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai Van Nguyen whose telephone number is 703-308-1791. The examiner can normally be reached on M-F (7:30-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 703-308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
